Attention: Aquicon Employees/Client/Trades

Dear All,

Re: Aquicon Construction – COVID-19 Update

In light of the increasing number of cases of COVID-19 in Ontario and Canada, Aquicon is taking necessary precautions to ensure the safety and security of our employees, clients, suppliers and guests across all our job sites. Our senior management and health and safety teams are in constant review of the situation. We are adapting promptly to the latest conditions to ensure the continued safety for all while attending all Aquicon Construction project sites.

As I am sure you are aware as of 11:59pm tonight only Essential Service Activity Businesses/Operations are to remain operating. The ICI Sector of Construction has been noted on this list and is to remain in operation until further notice. Therefore, all Aquicon Construction Sites will remain open and will be operational and moving forward within the guidelines put forward by our Health and Safety Department.

We will be continuing to monitor the situation and will provide further updates as they become known.

Yours truly,
AQUICON CONSTRUCTION CO. LTD.

Daniel Aquino, B.Eng
