March 30th, 2023 Summarized PIC#2 Comments for Phase-1 Broderick Avenue

Associated Engineering in conjunction with the City of Thorold, hosted a Public Information Centre (PIC) on March 30th, 2023, at Westmount Public School from 7:00 pm to 9:00 pm to foster comments from residents on the design of Phase 1 section of Broderick Avenue road reconstruction between Westmount Avenue and West Street in the City of Thorold.

The PIC was well-attended, and we received valuable feedbacks from the public. The main concerns raised were related to the removal of on-street parking and the removal of the existing median currently separating traffic along Broderick Avenue.

We also received numerous comments via email in the days following the PIC which reiterated the public opinion that on-street parking is preferred. The responses regarding the removal of the existing center median were split between respondents.

The summary of comments received from PIC #2 is shown as Appendix-1 in below.

Overall, we found the comments to be constructive and informative. We will take them into consideration as we move forward with the design.

Please do not hesitate to contact the undersigned if you have any further questions or concerns.

Ugochukwu (Ugo) Obiako, M.Eng., CET., P. Eng.
