The City of Thorold has completed several studies in relation to the creation of an Ecological Park, situated on the eastern shore of the Welland Canal in the Port Robinson area. These studies include: a Municipal Class Environmental Assessment (Class EA) Study; Cultural Heritage Evaluation Report; Heritage Impact Assessment; and a Stage 1 Archaeological Assessment. The City of Thorold has identified the potential for the creation of an Ecological Park that will provide the local community with an experiential and educational experience while protecting and enhancing the existing ecosystem. The city is initiating this public meeting to inform the community of the various findings from these reports/studies and gain public input on developing a design strategy.

Public input is encouraged and will be given consideration during the concept development and planning of this project.

Comments/Questions/Suggestions (additional space on the next page):

--

The City of Thorold and R.J. Burnside & Associates Limited thank you for your involvement in this Port Robinson Ecological Park Conceptual Master Plan. Personal information collected or submitted in writing at public meetings will be collected, used and disclosed by members of City staff in accordance with the *Municipal Freedom of Information and Protection of Privacy Act (MFIPPA)*. The written submissions including names, contact information and reports of the public meeting will be made available. Questions should be referred to the Deputy City Clerk at email: Joanne.Goulet@thorold.ca.
