DELETIONS, TRANSITION AND ENACTMENT

17. (1) Where this By-law establishes a fee or charge for a service, activity, or use of property, and a fee or charge for the same service, activity, or use of property is set out in a different by-law or policy that came into force before the effective date of this By-law, the following shall apply in the event of an inconsistency:
 - a) the earlier by-law or policy shall remain in full force and effect except to the extent of the inconsistency;

PERMIT FEE CALCULATION

1.0. Permit Fee Formula

Permit fees shall be calculated based on the formula given below, unless otherwise specified in this Schedule:

$$\text{Permit Fee} = \text{Prescribed fee} \times \text{Area}$$

Where the “Prescribed fee” is the fee specified in this Schedule for the classification of the proposed work.

1.1. Minimum Permit Fee

A minimum permit fee of \$194.40 shall apply to all works proposed, unless otherwise indicated or a prescribed “Flat Rate” has been assigned.

1.2. Plans Examination Deposit

A Plans Examination Deposit of the amount stipulated below under Plans Examination Deposit of this Schedule shall be submitted at the time of permit application in order to satisfy the Ontario Building Code requirements for a complete application and to cover any costs incurred through the Plans Examination process. - a) 90% where only administrative functions have been completed (application received and costs analysis complete);
- b) 80% where only administrative and zoning functions have been completed;
- c) 60% where administrative, zoning and plans examination functions have been performed;

- e) If the calculated refund is less than the minimum fee applicable to the work as described in 1.2 of this Schedule, no refund shall be made of the fees paid;
- f) No fees shall be refunded after twelve (12) months from the date of permit issuance.

EXPLANATORY NOTES

1. Area is the gross floor area of the building as defined by the Ontario Building Code. Area shall be calculated in square feet (ft²) for the purpose of this Schedule.
2. Where there is no floor or exterior walls for the project, area is to be calculated as the greatest horizontal area of the structure.
3. No deductions shall be made in the calculation of gross floor area for openings such as stairs, elevators, shafts, ramps.
4. Unfinished basements and crawlspaces are not to be included in the calculation of area in fee calculations for new construction and additions. Attached garages are not to be included in the fee calculation for new dwellings.
5. Major occupancy is based upon the Ontario Building Code.

6. For Partial permit, the percentage shown must be multiplied by the applicable permit fee shown for new construction. Percentage of previously approved stages may be subtracted where applicable.
7. The permit fee shall be determined by the Chief Building Official or designate, on the basis of this Schedule. If the Applicant disagrees with the fee so determined, then the prescribed fee shall be paid as a deposit and after the works are complete, a refund shall be made on the actual work done and inspections performed at the discretion of the Chief Building Official.

For categories of construction not listed above, the permit fee shall be \$16.00 for each \$1,000.00 of valuated cost, or portion thereof. The minimum permit fee identified in Section 1.2 of this Schedule shall apply.

8. The deposit(s) identified under Section 7.0 of this Schedule shall be held as security by the City until the work for which the permit has been issued has been completed in accordance with the stipulated requirements of the permit to the satisfaction of the Chief Building Official. The Owner/Applicant shall be responsible for any damage to City property or any restriction and associated costs of any such damage or repair may be deducted by the City in addition to any other available remedy or penalty.

Should the cost of repairs exceed the value of the deposit held, the City shall invoice the Owner/Applicant for the amount in excess of the deposit, and if such invoice is not paid by the stipulated due date, the City may recover the costs by action or by adding the costs to the tax roll of the property to which the permit relates, and collecting them in the same manner as taxes according to Section s.1 (2.1) of the Municipal Act as amended.

Should the deposits not be required to be called upon during the duration of the project, they will be released as follows:

- Lot Grading: Upon successful approval of the Final Lot Grading Certificate submitted in accordance with 4.2(1)(d)(iii) of the Building Bylaw 73-2010.
- Performance/Security: Upon successful completion of the project in accordance with the approved permit documents which results in a closure of such permit file.

9. A multiple unit (apartment) building is a building which consists of more than three (3) individual residential units in the same building.

10. Plumbing permit fees shall apply only when a permit is taken out solely for plumbing. The minimum permit fee referenced in Section 1.2 of this Schedule does not apply to plumbing permits.
11. The Spatial Separation Agreement fee is for review associated with the submitted Spatial Separation Agreement. This fee does not account for legal fees to draft and/or register the agreement as these fees are the sole responsibility of the property Owner. Any legal fees incurred by the City shall be the responsibility of the property Owner.
12. An Alternative Solution is as defined in the *Ontario Building Code*.
13. The fee prescribed for an Alternative Solution shall be in addition to any other applicable fee prescribed by this Schedule. Should any additional fees be incurred by the City in relation to the review of such a submission but not limited to consultant fees, these costs shall be added to the calculated permit fee at 100% of their value.
